You must click **Register now**, not Assign.

Please register in TMS prior to session

NOTE: You must open TMS link via Chrome or Edge browser, link will not work correctly through Internet Explorer.

Program Description: This live webinar, for healthcare teams, will familiarize the audience with the evidence supporting community-based interventions and how the VA is implementing CBI-SP in a national model to facilitate community coalition building. For state-level prevention, OMHSP is supporting expanding the Governor's Challenges to Prevent Suicide Among Service Members, Veterans, and their Families, where state-level policymakers will partner with local leaders to implement a comprehensive suicide prevention plan, with a goal to reach all 50 states by the end of FY22. For local community action, OMHSP is supporting expansion across all Veterans Integrated Service Networks (VISNs) of a Community Engagement and Partnerships – Suicide Prevention (CEP-SP) program focused on community coalition-building coupled with targeted outreach and education, as well as the Together With Veterans (TWV) program, a VA Office of Rural Health program focused on empowering and supporting Veteran leadership for suicide prevention.
